Asst. Director, Groundwater

These maps are accompanied by a series of cross sections which depict the subsurface units along the transects shown on the map. The maps and cross sections are representations of the data taken from the testholes and wells indicated on the maps. The data were obtained from the testholes and wells. The maps are not a substitute for the testholes and wells. The maps are not always continuous within the areas shown. They may not be found at a specific site or may occur at elevations other than those indicated. Discontinuous water bearing zones may be found outside the boundaries shown.
