

Geology and Groundwater Resources
of the Willow Bunch Lake Area (72H),
Saskatchewan

Map 3 Bedrock Surface Geology and Topography

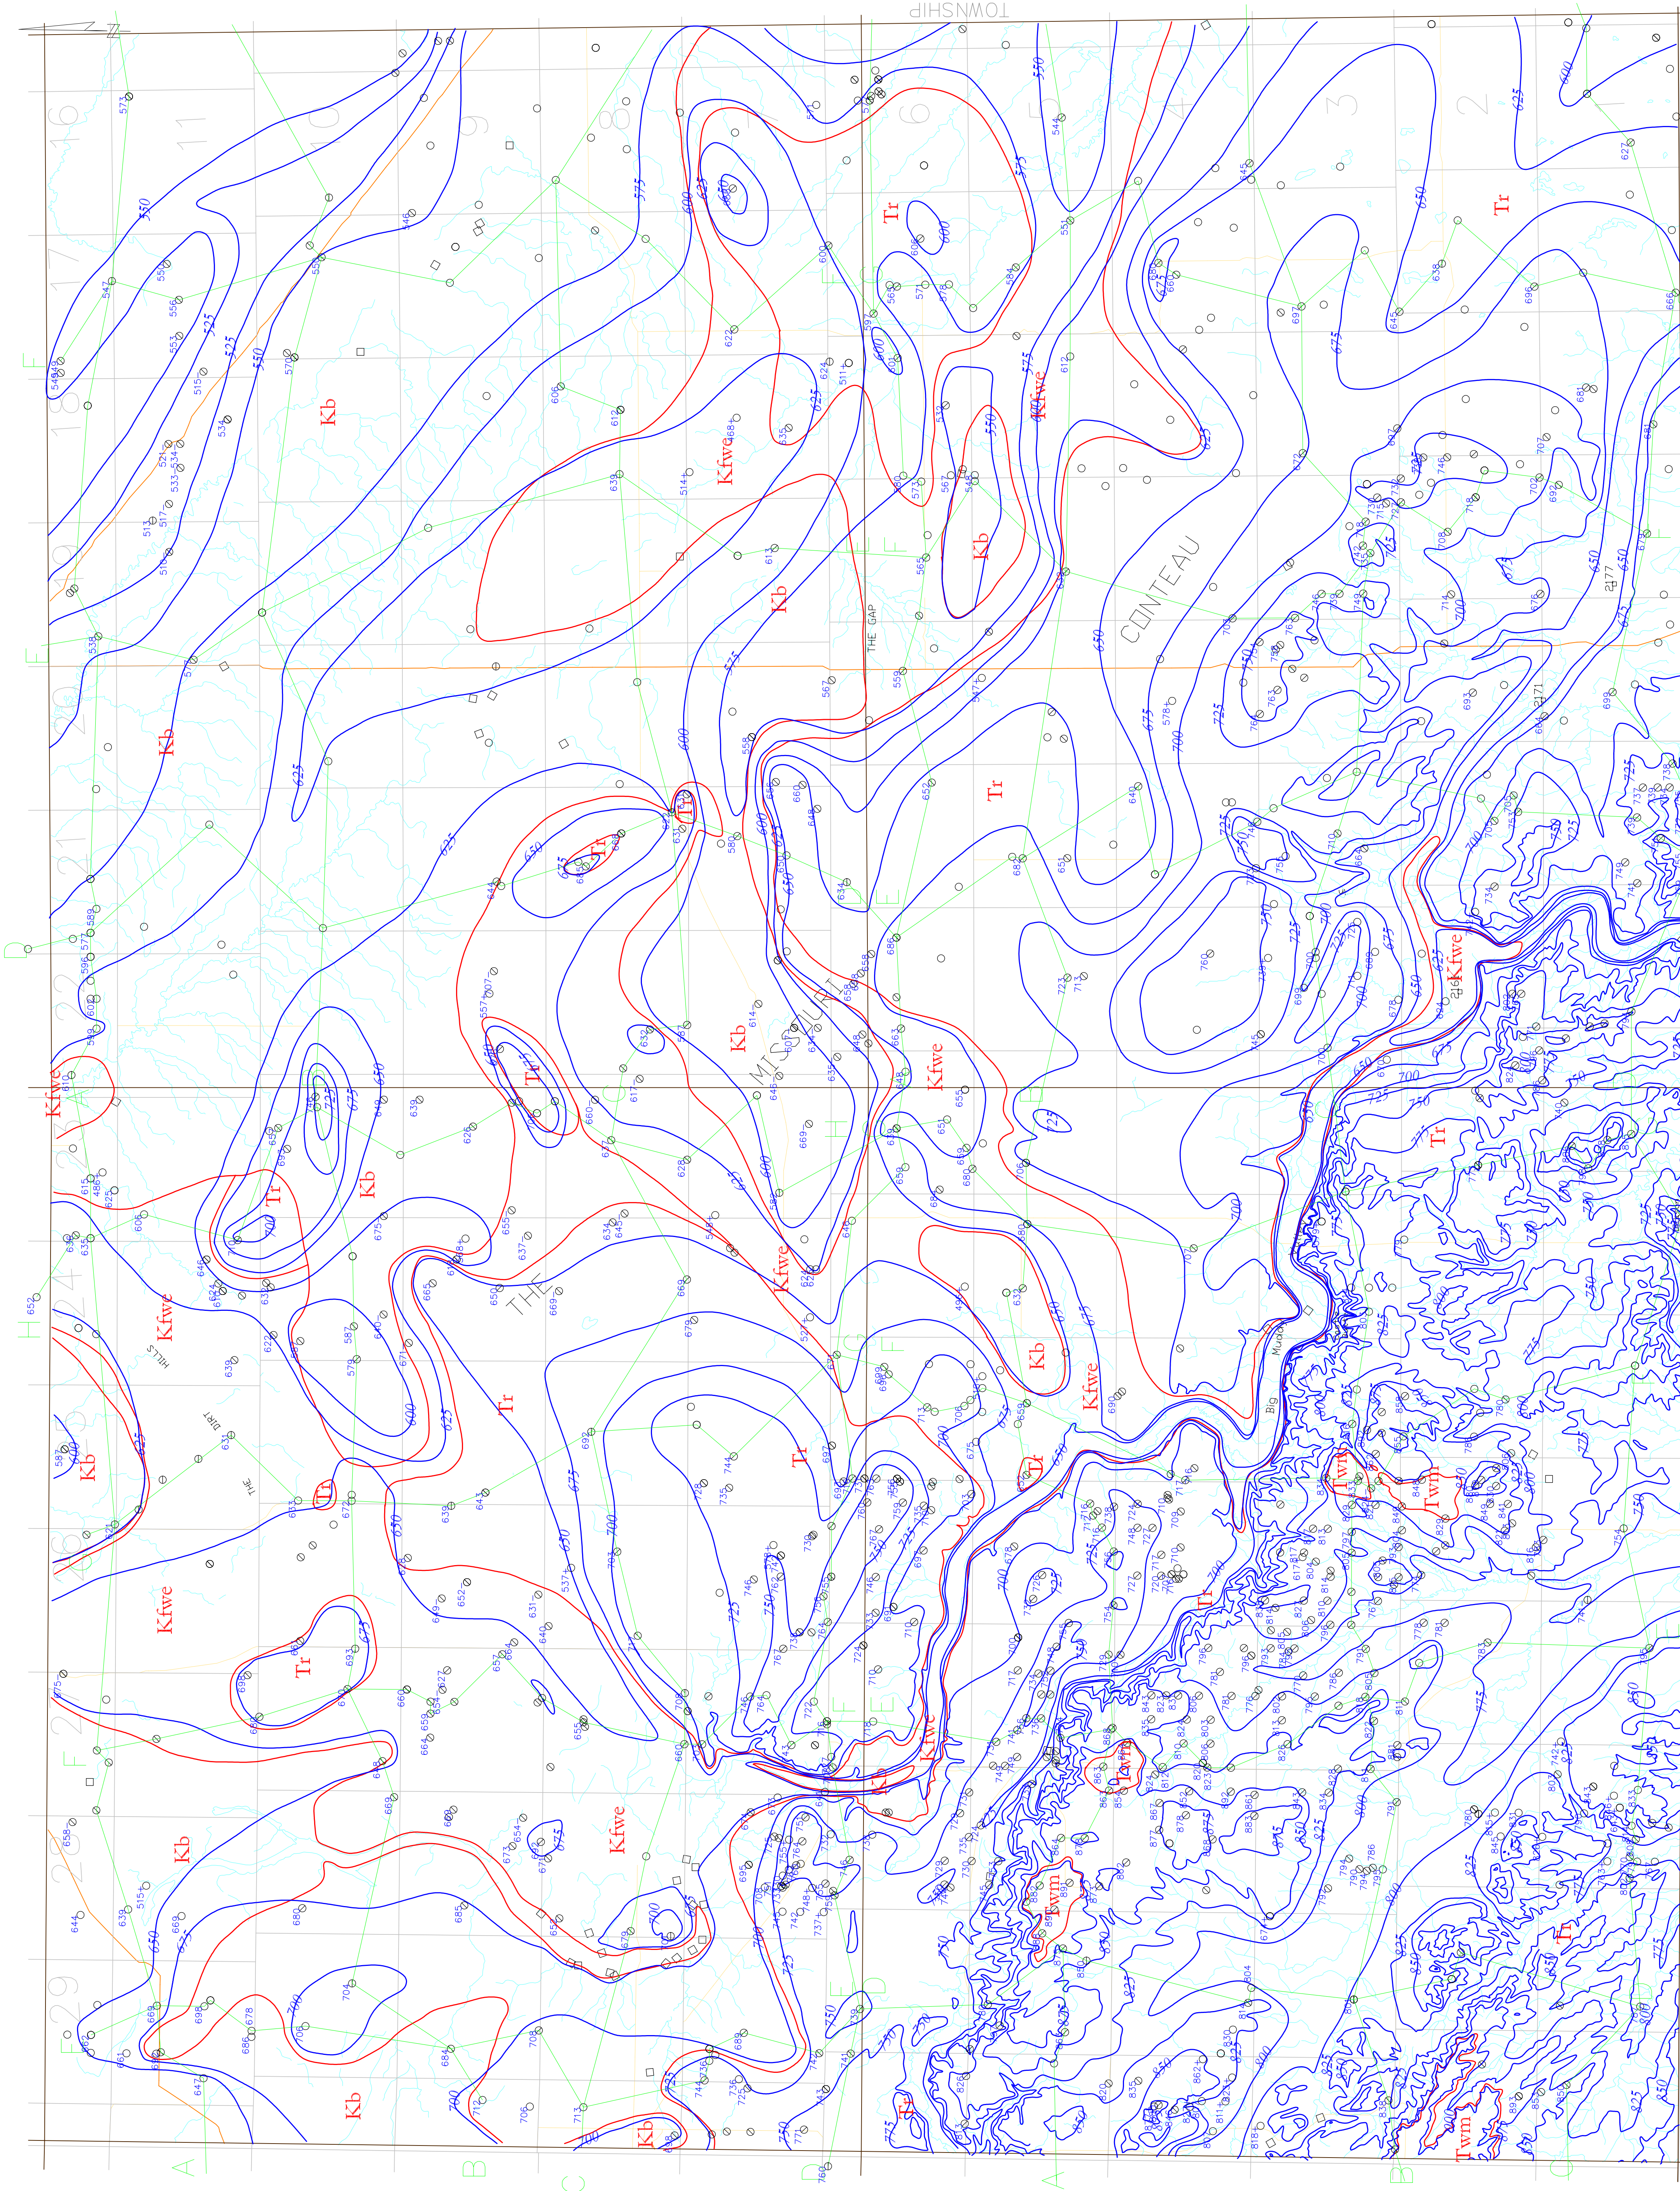

- Kb** - Bearpaw Formation
- Twm** - Wood Mountain Formation
- Kfwe** - Frenchman, Whitemud and Eastend Formations
- Tr** - Ravenscrag Formation

Contour of bedrock topography
(25 metre contours)

Formation Extent

LEGEND

- F—F'** Cross Section
- ⁶¹²** Elevation of bedrock, in metres above sea level
- E-log only
- ⊖** E-log, geologist description
- ⊙** E-log, driller's log
- SRC Observation Well
- ★** Flowing well/testhole

These maps are accompanied by a series of cross sections which depict the subsurface units along the transects shown on the map. The maps and cross sections are representations of the data taken from the testholes and wells indicated on the maps. The boundaries outline areas in which the aquifer or geologic unit is likely to be found. Aquifers and other geologic units always occur continuously within the areas shown, may not be found at a specific site or may occur at elevations other than those indicated. Discontinuous water bearing zones may be found outside the boundaries shown.
