

Senior Technologist, Water & Wastewater

Division: Science & Licensing

Unit: Water & Wastewater

Location: Swift Current

Hourly Wage: \$40.48 - \$50.63 (Classification 9)

Competition Number: WSA-35-2025/26

As a Senior Technologist, Water & Wastewater, you will work within a multi-disciplinary team to provide technical and administrative expertise in support of the Water Security Agency's (WSA) regulatory activities. These activities include compliance, enforcement, approvals, and inquiries. This position provides Duty to Consult, Environmental Assessment Review, and education and communication of WSA programs to the citizens of Saskatchewan.

In this role, you will review, investigate, and respond to regulatory applications and complaints related to the construction, operation, closure, or cancellation of surface and groundwater works, as well as water use and allocation. Your work will help ensure the sustainable and environmentally responsible development of the province's surface and groundwater resources.

You will also provide technical evaluation and assessment activities including: collecting and analyzing available meteorological, hydrogeological or hydrometric information; analyzing pumping test data, review of local geology, driller's reports and available geophysical logs, estimating and calculate local runoff and water supply; discuss proposed or historic operations with other agencies and the public; undertake field surveys; and perform relevant engineering calculations and complete

applicable field and technical reports, documentation and drawings.

The successful candidate will have a diploma in Environmental Engineering Technology or Water Resources Engineering Technology or a similar technical discipline. You must possess or be eligible for certification obtained through Technology Professionals Saskatchewan (TPS).

This role is subject to a satisfactory criminal record check. We offer rewarding career opportunities, competitive salaries, and a comprehensive benefits package.
