

Engineer I, Conveyance

Division: Infrastructure

Unit: Operations & Maintenance

Location: Saskatoon

Salary: \$86,484 - \$108,120 (MC 5)

Competition Number: WSA-36-2025/26

Engineer-in-training candidates who do not meet all the qualifications will be considered and evaluated based on their relevant experience to determine their appropriate level.

Join a collaborative team dedicated to protecting Saskatchewan's water resources as an Engineer! This role offers the opportunity to contribute your expertise in an environment that values integrity, accountability, and teamwork.

As an Engineer, you will provide professional engineering services to a broad range of activities related to the operations and maintenance, rehabilitation, and dam safety activities for conveyance infrastructure and associated works.

This position will conduct inspections, evaluations, and assessments of water management infrastructure to ensure operational adequacy and safety. As well as conduct field inspections, review and perform engineering calculations and analyses, prepare and review applicable reports, drawings, and other technical data to ensure adequate documentation of work activities, asset conditions, and performance.

This position will also provide intermediate engineering support in the development and implementation of engineering criteria and suitable techniques for the investigation, design, construction, operation, maintenance, and

technical monitoring of conveyance and other water management infrastructure.

The successful candidate will have a degree in Engineering and a license to practice professional engineering from the Association of Professional Engineers and Geoscientists of Saskatchewan (APEGS) and 4 year of related experience.

This role is subject to a satisfactory criminal record check. We offer rewarding career opportunities, competitive salaries, and a comprehensive benefits package.
